EXPERIENCE

Frontend Developer   June 2022 - Present
Giift India Pvt Ltd   *Mumbai*

- Engineered and maintained the front end of 20+ loyalty point systems, significantly improving responsiveness and user engagement.
- Transformed a sluggish marketplace by building a new React project from scratch, reducing load time and boosting engagement and conversions. **Marketplace Site:** [(Link)](Link)
- Built a dynamic platform for loyalty point transactions, increasing user activity.
- Leveraged RTK and Axios for real-time data, with Formik, Yup, and React Datepicker for robust validation and date selection.
- Worked with diverse clients from Sri Lanka, Dubai, and Bangladesh, delivering tailored solutions.
- Worked with APIs using Postman for testing and documentation, ensuring proper functionality and integration.
- **Technologies Used: React, Vue.js, Redux, RTK, Tailwind CSS, Bootstrap, Axios, Formik, Yup, React Datepicker, JavaScript, CSS, HTML.**

UI Developer   July 2021 - June 2022
Supporthive Technology   *Mumbai*

- Developed and optimized multi-platform UIs for London-based clients, ensuring seamless experiences across devices.
- Initially built with HTML, CSS, and Bootstrap, then rebuilt in React for improved scalability and performance.
- Compressed images using Google Squoosh, reduced load times, and audited performance with Lighthouse.
- Enhanced user interaction by optimizing Cumulative Layout Shift (CLS) and First Input Delay (FID).
- **Technologies Used: React, Redux, Tailwind CSS, Bootstrap, Google Squoosh, Lighthouse, JavaScript, CSS, HTML.**

Sports Analyst   June 2019 - May 2021
HUDL INDIA Pvt Ltd   *Pune*

- As a top soccer analyst, I tracked and analyzed soccer, volleyball, lacrosse, and basketball games.
- Focused on quality control and data accuracy to ensure reliable insights.
